INDEPENDENT AUDITOR'S REPORT

JOINT COMMITTEE ON LEGISLATIVE SERVICES, GENERAL ASSEMBLY
STATE OF RHODE ISLAND AND PROVIDENCE PLANTATIONS:

RETIREMENT BOARD OF THE EMPLOYEES' RETIREMENT SYSTEM OF THE
STATE OF RHODE ISLAND:

We have audited the accompanying basic financial statements of the plans which comprise the Employees' Retirement System of the State of Rhode Island (the System) as of June 30, 2008 and for the year then ended, as listed in the table of contents. These financial statements are the responsibility of the System's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

As discussed in Note 1(a), the financial statements present only the Pension Trust Funds of the State of Rhode Island and Providence Plantations (the State) and do not purport to, and do not, present fairly the financial position of the State, as of June 30, 2008, and the changes in its financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the fiduciary net assets of the plans within the System as of June 30, 2008, and the changes in fiduciary net assets for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we will issue our report dated December 23, 2008 on our consideration of the System's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis beginning on page 3, the Schedules of Funding Progress and the Schedules of Contributions from the Employers and Other Contributing Entity on pages 36 and 37, and the Schedule of Funding Progress – Rhode Island Retiree Health Care Benefit Plan on page 38 are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Ernest A. Almonte, CPA, CFF
Auditor General

December 23, 2008

Management's Discussion and Analysis

Management of the Employees' Retirement System of the State of Rhode Island (the System) provides this Management's Discussion and Analysis of their financial performance for the readers of the System's financial statements. This narrative provides an overview of the System's financial activity for the fiscal year ended June 30, 2008. This analysis is to be considered in conjunction with the financial statements to provide an objective analysis of the System's financial activities based on the status of the System and issues currently facing management.

Understanding the Employees' Retirement System Financial Statements

The System administers defined benefit pension plans for state employees, teachers, state police, judges and participating municipal employees. State employees and teachers are combined in one plan while state police, judges and municipal employees each have separate plans. The *Statements of Fiduciary Net Assets* provide a snapshot of the financial position of the System at June 30, 2008. The *Statements of Changes in Fiduciary Net Assets* summarize the additions and deductions that occurred during the fiscal year. The *Notes to the Financial Statements* provide additional information that is essential to a full understanding of the financial statements. The *Required Supplementary Information* consists of schedules and related notes, which demonstrate the System's progress in accumulating funds to meet future pension benefits for members of the System as well as the funding progress for employees of the System participating in the Rhode Island Retiree Health Care Benefit Plan.

Financial Highlights for the Fiscal Year Ended June 30, 2008

- ❑ The System's fiduciary net assets decreased by \$600 million from \$8.5 billion at June 30, 2007 to \$7.9 billion at June 30, 2008.
- ❑ Total pension benefits paid to members were \$687.7 million, an increase of \$40 million or 6.2% compared to the fiscal year ended June 30, 2007.
- ❑ Total employee and employer contributions into the System's plans increased \$42.5 million compared to the prior year. Total contributions from both employers and employees at June 30, 2008 were \$556.3 million.
- ❑ The System incurred a net loss from investing activities of \$481.8 million for the fiscal year ended June 30, 2008. Included in this amount is \$7.8 million in securities lending income.

Management's Discussion and Analysis

Investments

The State Investment Commission (SIC) establishes long-term asset allocation policy and monitors investment performance of the plan. An asset/liability (A/L) study is conducted every two to three years to identify an optimal diversified investment portfolio that maximizes return within an acceptable level of risk. As long-term investors, the SIC is committed to its strategic asset allocation that has been developed as part of a comprehensive A/L study which incorporates capital market return expectations, risks and correlations associated with each asset class as well as the unique profile and objectives of the System. As a defined benefit plan, the System generally has a much longer time horizon than individual investors and is better positioned to withstand short-term volatility of the capital markets.

The following asset allocation targets were in place at June 30, 2008.

Fiscal 2008 – Asset Allocation Targets	
Domestic Equity	42.5%
International Equity	20.0%
Fixed Income	25.0%
Alternative Investments	7.5%
Real Estate	5.0%

Asset Allocation – Actual
Fair Value (in millions) at June 30, 2008

EMPLOYEES' RETIREMENT SYSTEM OF THE STATE OF RHODE ISLAND

Management's Discussion and Analysis

The asset allocation is currently undergoing a significant review process in order to best reflect the appropriate long term risk/reward profile.

The allocation of assets among stocks, bonds and alternative investments can have a significant impact on investment performance. In light of its long time horizon, the SIC is able to take advantage of historical long-term return opportunities offered by equity investments.

Investment Performance

The System's one-year, three-year and five-year time weighted rates of return for the periods ended June 30, 2008 were -5.39%, 7.40% and 10.63%, respectively. For fiscal year 2008, the fund underperformed its composite benchmark by 48 basis points (bps), the 3-year period underperformed by 54 bps and the 5-year period beat the benchmark by 33 bps.

The composite benchmark is weighted based on asset allocation targets. It is currently comprised: 42.5% Wilshire 5000; 25% Barclay's Aggregate; 20% MSCI ACWI X US; 5% NCREIF Property Index Lagged; and 7.5% S&P 500 + 3%. The composite benchmark for each of the years shown in the chart reflects the asset allocation targets in place for that fiscal year and the related indices used to measure performance.

For the fiscal year ended June 30, 2008 the fund's domestic equity portfolio was down 13.38% (vs. -12.53% for the Wilshire 5000), the international portfolio declined 10.75% (vs. -6.2% for the MSCI ACWI ex US) and the fixed income composite returned 5.71% (vs. 7.13% for the Barclay's Aggregate). The alternative investment portfolio realized an internal rate of return of 7.3%. Since inception, the alternative investment component has generated an internal rate of return of 16.5%.

The System's actuarial investment return assumption is 8.25%. Actuarial value of assets is determined based on a five-year smoothing methodology.

Management's Discussion and Analysis

Funding Status

Independent actuarial valuations are conducted of the System each year. As part of this valuation, the progress toward funding pension obligations of the System is measured by comparing the actuarial value of assets to the actuarial accrued liability. This measure is referred to as the funded ratio or funded status. As reflected in the most recent actuarial valuation (June 30, 2007), the funded ratio increased to 57.5% for State Employees and 55.4% for Teachers within the Employees' Retirement System plan. The funded ratio for the Judges' plan decreased to 83.8% as a result of the passage of Article 35. The State Police plan's funded ratio decreased to 76.1% due to the passage of Article 22. The Municipal Employees' Retirement System plan's funded ratio increased with an overall average ratio of 90.3%.

Details of the funded status of each plan within the System are included in the Schedules of Funding Progress on page 36.

All employers participating in the System's plans contributed 100% of their annual required contribution.

Next Year's Contribution Rates and Economic Outlook

Employer contribution rates for fiscal 2009 increased for State employees (20.77% for fiscal 2008 compared to 21.13% for fiscal 2009) and teachers (22.01% for fiscal 2008 compared to 25.03% for fiscal 2009), decreased for state police (31.00% for fiscal 2008 compared to 30.06% for fiscal 2009) and increased for judges (32.07% for fiscal 2008 compared to 32.35% for fiscal 2009). The fiscal 2009 employer contribution rates are based upon an actuarial valuation performed at June 30, 2006.

RI General Law §35-6-1(d) provides for a transfer to the Employees' Retirement System if general revenues of the State, in the completed fiscal year, exceed estimates adopted for that year as contained in the final enacted State budget. The transfer would be made by the State Controller upon issuance of the audited financial statements of the State. Any amounts transferred to the Employees' Retirement System pursuant to this section of the General Laws would be considered employer contributions in excess of the annual required contribution as determined by the actuary consistent with other applicable sections of the General Laws as described in Note 5. No amount has been recognized as due from the State at June 30, 2008 to the System since the fiscal 2008 audit of the State's financial statements has not been completed.

Management's Discussion and Analysis

Subsequent to June 30, 2008, the fair value of the System's investments has declined significantly consistent with overall declines in the domestic and international financial markets. These declines were largely the result of the sub-prime mortgage crisis and its subsequent impact on the broader credit markets. The State Investment Commission has adopted a long-term investment policy for the System's investments, which includes diversification of holdings pursuant to an asset allocation model. Additionally, the impact on the funded status of the System's plans and required contributions due to any near-term decline in value of the System's investments will be tempered by the five-year smoothing methodology employed in the actuarial value of assets.

Contacting the System's Management

This discussion and analysis presentation is designed to provide a general overview of the System's financial activity. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Employees' Retirement System, 40 Fountain Street, Providence, RI, 02903.

EMPLOYEES' RETIREMENT SYSTEM OF THE STATE OF RHODE ISLAND

*Notes to Financial Statements
Fiscal Year Ended June 30, 2008*

1. Plan Descriptions

(a). General

The Employees' Retirement System of the State of Rhode Island (the System) acts as a common investment and administrative agent for pension benefits to be provided for four defined benefit retirement plans as listed below:

<i>Plan Name</i>	<i>Type of Plan</i>
Employees' Retirement System (<i>ERS</i>)	Cost-sharing multiple-employer defined benefit plan
Municipal Employees' Retirement System (<i>MERS</i>)	Agent multiple-employer defined benefit plan
State Police Retirement Benefits Trust (<i>SPRBT</i>)	Single-employer defined benefit plan
Judicial Retirement Benefits Trust (<i>JRBT</i>)	Single-employer defined benefit plan

Although the assets of the plans are commingled for investment purposes, each plan's assets are accounted for separately and may be used only for the payment of benefits to the members of that plan, in accordance with the terms of that plan.

The System's financial statements are included as Pension Trust Funds within the Fiduciary Funds in the Comprehensive Annual Financial Report of the State of Rhode Island and Providence Plantations.

The System is administered by the State of Rhode Island Retirement Board which was authorized, created and established in the Office of the General Treasurer as an independent retirement board to hold and administer, in trust, the funds of the retirement system. The fifteen members of the retirement board are: the general treasurer or his or her designee who shall be a subordinate within the general treasurer's office; the director of administration or his or her designee who shall be a subordinate within the department of administration; a representative of the budget office or his or her designee from within the budget office, who shall be appointed by the director of administration; the president of the league of cities and towns or his or her designee; two (2) active state employee members of the retirement system or officials from state employee unions to be elected by active state employees; two (2) active teacher members of the retirement system or officials from a teachers union to be elected by active teachers; one active municipal employee member of the retirement system or an official from a municipal employees union to be elected by active municipal employees; two (2) retired members of the retirement system to be elected by retired members of the system; and four (4) public members, all of whom shall be competent by training or experience in the field of finance, accounting or pensions; two (2) of the public members shall be appointed by the governor, one of whom shall serve an initial term of three (3) years and one of whom shall serve an initial term of four (4) years and until his or her successor is appointed and qualified; and two (2) of the public members shall be appointed by the general treasurer, one of whom shall serve an initial term of three (3) years and one of whom shall serve an initial term of four (4) years and until his or her successor is appointed and qualified. Thereafter, the

EMPLOYEES' RETIREMENT SYSTEM OF THE STATE OF RHODE ISLAND

Fiscal Year Ended June 30, 2008*

1. Plan Descriptions (continued)

(a). General

term of these four (4) public members shall be for four (4) years or until their successors are appointed and qualified by the Senate.

The System's purpose is to provide retirement benefits to state employees, public school teachers, certain general municipal employees, public safety employees, state police officers, and judges.

A summary of membership by plan as of the June 30, 2007 actuarial valuation follows:

	<i>Retirees and beneficiaries</i>	<i>Terminated plan members entitled to but not yet receiving benefits</i>	<i>Active Vested</i>	<i>Active Non-vested</i>	<i>Total by Plan</i>

(b). Membership and Benefit Provisions

(1) EMPLOYEES' RETIREMENT SYSTEM (ERS)

The ERS was established under section two of chapter 2334 of the Rhode Island Public Laws of 1936 and placed under the management of the Retirement Board for the purpose of providing retirement allowances for employees of the State of Rhode Island under the provisions of chapters 8 to 10, inclusive, of title 36, and public school teachers under the provisions of chapters 15 to 17, inclusive, of title 16 of the Rhode Island General Laws.

The plan covers most State employees other than certain personnel at the State colleges and university (principally faculty and administrative personnel). Elected officials may become members on an optional basis. Membership in the plan is compulsory for teachers, including superintendents, principals, school nurses, and certain other school officials in the public schools in the cities and towns. Rhode Island Airport Corporation

EMPLOYEES' RETIREMENT SYSTEM OF THE STATE OF RHODE ISLAND

*Notes to Financial Statements
Fiscal Year Ended June 30, 2008*

1. Plan Descriptions (continued)

(b). Membership and Benefit Provisions

(RIAC) employees hired before July 1, 1993 are also covered and have the same benefits as State employees. Rhode Island Economic Development Corporation (RIEDC) employees who were (1) active contributing members and employees of the Department of Economic Development of the State of Rhode Island before October 31, 1995, and (2) elected to continue membership in the plan are also covered and have the same benefits as State employees. Narragansett Bay Water Quality District Commission employees who are members of a collective bargaining unit are also covered and have the same benefits as State employees.

The plan provides a two-tier benefit structure referred to as *Schedules A and B*.

Schedule A Benefits

Schedule A benefits are available to members who possessed 10 years or more of contributory service on or before July 1, 2005. Schedule A provides unreduced benefits of 1.7% of earnings for each of the first ten years of service; 1.9% for each of the next ten years; 3.0% per year for each of the next fourteen years; and 2% for the 35th year. Joint and survivor options are available as well as the Service Retirement Allowance (SRA) Plus option that provides for the payment of a larger benefit before the attainment of age sixty-two (62) and a reduced amount thereafter. The reduced amount is equal to the benefit before age sixty-two (62), including cost-of-living increases, minus the member's estimated social security benefit payable at age sixty-two (62). The maximum benefit is 80% of final average earnings after 35 years of service. Such benefits are available to members at least age 60 with 10 years of service, or after 28 years at any age. A different benefit formula applies to State correctional officers who may retire at age 50 if they have 20 years of service. Benefits for all employees are based on the average of the highest three consecutive years' earnings, exclusive of overtime.

On the third January after retirement, a cost-of-living increase of 3% (compounded annually) is provided independent of actual changes in the consumer price index. The plan also provides nonservice-connected disability benefits after five years of service; service-connected disability pensions with no minimum service requirement; vested benefits after ten years of service; survivor's benefits for service-connected death; and certain lump sum death benefits.

Schedule B Benefits

Schedule B benefits are provided to members who had less than 10 years of contributory service on or before July 1, 2005. For Schedule B members, the plan provides unreduced benefits of 1.6% of earnings for each of the first ten years of service; 1.8% for each of the next ten years; 2.0% per year for years 21 through 25 inclusive; 2.25% per year for years 26 through 30 inclusive; 2.50% per year for years 31 through 37 inclusive and 2.25% for the 38th year. Only single life, and joint and

EMPLOYEES' RETIREMENT SYSTEM OF THE STATE OF RHODE ISLAND

Fiscal Year Ended June 30, 2008*

1. Plan Descriptions (continued)

(b). Membership and Benefit Provisions

survivor options are available. The maximum benefit is 75% of his or her average highest three (3) years of compensation after 38 years of service. Such benefits are available to members at least age 65 with 10 years of service, or after 29 years of service and age 59. Actuarially reduced retirement is available at age 55 and 20 years of service, the benefit is reduced actuarially for each month that the age of the member is less than sixty-five (65) years.

On the month following the third anniversary date of the retirement, and on the month following the anniversary date of each succeeding year, a cost-of-living increase of 3% (compounded annually) or the percentage of increase in the Consumer Price Index for all Urban Consumers (CPI-U) as published by the United States Department of Labor Statistics, determined as of September 30 of the prior calendar year, whichever is less is provided for Schedule B members.

The plan also provides benefits to legislators elected to office prior to January 1, 1995, of \$600 for every year served up to a maximum of \$12,000, annually. Such benefits are available to legislators 55 and over with at least 8 years of service or, at any age with 20 or more years of service.

The plan provides a survivor benefit to public school teachers via a "Teachers Survivor Benefits Fund" in lieu of Social Security. Not all school districts participate in the plan. The cost of the benefits provided by the plan are two percent (2%) of the member's annual salary up to but not exceeding an annual salary of \$9,600; one-half (1/2) of the cost is contributed by the member by deductions from his or her salary, and the other half (1/2) is contributed and paid by the respective city, town, or school district by which the member is employed. These contributions are in addition to the contributions required for regular pension benefits.

Spouse, parents, family and children's benefits are payable following the death of a member. A spouse shall be entitled to benefits upon attaining the age of sixty (60) years. Children's benefits are payable to the child, including a stepchild or adopted child of a deceased member if the child is unmarried and under the age of eighteen (18) years or twenty-three (23) years and a full time student, and was dependent upon the member at the time of the member's death. Family benefits are provided if at the time of the member's death the surviving spouse has in his or her care a child of the deceased member entitled to child benefits. Parents benefits are payable to the parent or parents of a deceased member if the member did not leave a widow, widower, or child who could ever qualify for monthly benefits on the member's wages and the parent has reached the age of 60 years, has not remarried, and received support from the member. In January, a yearly cost-of-living adjustment for spouse's benefits is paid and based on the annual social security adjustment.

EMPLOYEES' RETIREMENT SYSTEM OF THE STATE OF RHODE ISLAND

Notes to Financial Statements
Fiscal Year Ended June 30, 2008

1. Plan Descriptions (continued)

(b). Membership and Benefit Provisions

The Teachers Survivor Benefits Fund provides benefits based on the highest salary at the time of retirement of the teacher. Benefits are payable in accordance with the following table:

<u>Highest Annual Salary</u>	<u>Spousal Monthly Minimum Benefit</u>
\$17,000 or less	\$ 750
\$17,001 to \$25,000	\$ 875
\$25,001 to \$33,000	\$ 1,000
\$33,001 to \$40,000	\$ 1,125
\$40,001 and over	\$ 1,250

Benefits payable to children and families are equal to the spousal benefit multiplied by the percentage below:

Parent and 1 Child	Parent and 2 Children	Parent and more than 2 Children	One Child Alone	Two Children Alone	Three or more Children Alone
150%	175%	175%	75%	150%	175%

(2) MUNICIPAL EMPLOYEES' RETIREMENT SYSTEM (MERS)

The MERS was established under section one of chapter 2784 of the Rhode Island Public Laws of 1951 and placed under the management of the Retirement Board for the purpose of providing retirement allowances to employees of municipalities, housing authorities, water and sewer districts, and municipal police and fire persons that have elected to participate. The plan generally provides retirement benefits equal to 2% of a member's final average salary multiplied by the number of years of total service up to a maximum of 75%. Joint and survivor options are available as well as the Service Retirement Allowance (SRA) Plus option that provides for the payment of a larger benefit before the attainment of age sixty-two (62) and a reduced amount thereafter. The reduced amount is equal to the benefit before age sixty-two (62), including cost-of-living increases, minus the member's estimated social security benefit payable at age sixty-two (62). Such benefits are available to members at least age 58 with 10 years of service or after 30 years of service at any age. Police and fire personnel may retire at age 55 if they have 10 years of service or after 25 years of service at any age. An optional cost-of-living provision may be elected for police and fire personnel and general employees. An option may be elected to provide a 20 year service pension with a benefit equal to 2.5% for each year of service up to a maximum of 75% for police and fire personnel. Benefits are based on the average of the highest three consecutive years' earnings, exclusive of overtime.

EMPLOYEES' RETIREMENT SYSTEM OF THE STATE OF RHODE ISLAND

*Notes to Financial Statements
Fiscal Year Ended June 30, 2008*

1. Plan Descriptions (continued)

(b). Membership and Benefit Provisions

The plan also provides nonservice-connected disability benefits after 5 years of service; service-connected disability pensions with no minimum service requirement; vested benefits after 10 years of service; survivor's benefits; and certain lump sum death benefits. A summary of participating employers is listed below:

Municipalities, housing authorities, water and sewer districts	67
Municipal police and fire departments	<u>43</u>
Total participating units as of the actuarial valuation at June 30, 2007	<u>110</u>

(3) STATE POLICE RETIREMENT BENEFITS TRUST (SPRBT)

The State Police Retirement Benefits Trust was established under Rhode Island General Law Section 42-28-22.1 and was placed under the management of the Retirement Board for the purpose of providing retirement allowances to State Police.

The plan covers all State Police and Superintendents hired after July 1, 1987.

The plan generally provides retirement benefits equal to 50% of final salary after 20 years of service, plus 3.0% of final salary times service in excess of 20 years through 25 years to a maximum of 65% of final salary. Such benefits are available to members after 20 years of service regardless of age. The Superintendent of the State Police will receive 50% of his/her final salary and may retire after attainment of age 60 and 10 years of service. A cost-of-living adjustment of \$1,500 per annum beginning on January 1st of the year in which a member attains his/her third anniversary of retirement is provided to all members.

Benefits are based on the final base salary earned at retirement including longevity increment, holiday pay, clothing allowance and up to 400 overtime hours.

The plan also provides nonservice-connected disability benefits after 10 years of service and service-connected disability pensions with no minimum service requirement.

During the fiscal year ended June 30, 2008 the General laws were amended such that any member of the state police, other than the superintendent, who is hired on or after July 1, 2007 and who has served for twenty-five (25) years shall be entitled to a retirement allowance of 50% of the final salary. In addition, any member may serve up to a maximum of 30 years, and shall be allowed an additional amount equal to 3.0% for each completed year served after 25 years to a maximum retirement allowance not to exceed 65% of the final salary.

EMPLOYEES' RETIREMENT SYSTEM OF THE STATE OF RHODE ISLAND

*Notes to Financial Statements
Fiscal Year Ended June 30, 2008*

1. Plan Descriptions (continued)

(b). Membership and Benefit Provisions

(4) JUDICIAL RETIREMENT BENEFITS TRUST (JRBT)

The Judicial Retirement Benefits Trust was established under Rhode Island General Laws 8-8.2-7; 8-3-16; 8-8-10.1; 28-30-18.1; and was placed under the management of the Retirement Board for the purpose of providing retirement allowances to Justices of the Traffic Tribunal, Supreme, Superior, Family, District and Workers Compensation courts. The plan covers all Judges appointed after December 31, 1989. Certain survivor benefits are also provided to judges who are plan members which is 50% of the benefit amount payable to the judicial member.

Judges appointed after December 31, 1989 but before July 2, 1997 are generally provided retirement benefits equal to 75% of the final salary at the time of retirement after 20 years of service, or 10 years of service and attainment of age 65. Judges retiring after 20 years of service after age 65 or 15 years of service after age 70 will receive full retirement benefits, which is the final salary at time of retirement.

For judges appointed subsequent to July 2, 1997, salary is the average highest three (3) consecutive years of compensation rather than final salary.

During the fiscal year ended June 30, 2008 the General Laws were amended for judges appointed on or after January 1, 2009. Judges with 20 years of service after age 65 or judges with 15 years of service after age 70 will receive 90% of the average of the highest three consecutive years of compensation. Judges appointed on or after January 1, 2009 with 10 years of service and age 65 or 20 years of service at any age are entitled to a reduced benefit of 70% of the average highest three consecutive years of compensation. Judges designating a survivor benefit with 20 years of service and age 65 or 15 years of service and age 70 would receive a reduced benefit equal to 80% of the average highest three consecutive years of compensation. Judges designating a survivor benefit with 10 years of service after age 65 or 20 years of service at any age would receive a reduced benefit equal to 60% of the average highest three consecutive years of compensation.

All judicial plan members receive, beginning on the third January after the date of retirement, a cost-of-living increase amounting to 3% not compounded. This benefit is provided to Supreme, Superior, Family and District Court Judges, independent of actual changes in the consumer price index. Traffic Tribunal and Workers' Compensation Court Judges, on the third January after the date of retirement, receive a cost-of-living increase amounting to 3% compounded annually.

EMPLOYEES' RETIREMENT SYSTEM OF THE STATE OF RHODE ISLAND

*Notes to Financial Statements
Fiscal Year Ended June 30, 2008*

2. Summary of Significant Accounting Policies

These financial statements were prepared in accordance with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board (GASB). The Governmental Accounting Standards Board (GASB) is responsible for establishing generally accepted accounting principles for defined benefit pension plans established by governmental entities. In accordance with GASB Statement No. 20, in the absence of specific guidance from a GASB pronouncement, pronouncements of the Financial Accounting Standards Board (FASB) issued on or before November 30, 1989 have been followed.

Basis of Accounting - The financial statements of the System are prepared on the accrual basis of accounting. Under this method revenues are recorded when earned and expenses are recorded when incurred. Plan member contributions are recognized in the period in which the contributions are withheld from payroll. Employer contributions to each plan are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of each plan. Dividend income is recorded on the ex-dividend date.

Investment transactions are recorded on a trade date basis. The gains or losses on foreign currency exchange contracts are included in income in the period in which the exchange rates change. Gains and losses on contracts which hedge specific foreign currency denominated commitments are deferred and recognized in the period in which the transaction is completed.

Method Used to Value Investments - Investments are recorded in the financial statements at fair value. Fair value is the amount that a plan can reasonably expect to receive for an investment in a current sale between a willing buyer and a willing seller - that is, other than a forced liquidation sale.

The fair value of fixed income securities and domestic and international stocks is generally based on published market prices and quotations from national security exchanges and securities pricing services.

Commingled funds consist of institutional domestic and international equity index funds and a short duration fixed income fund. The fair value of the commingled funds is based on the reported share value of the respective fund.

Futures contracts are valued at the settlement price established each day by the board of trade or exchange on which they are traded.

Short term investments are generally carried at cost which approximates fair value.

EMPLOYEES' RETIREMENT SYSTEM OF THE STATE OF RHODE ISLAND

Notes to Financial Statements
Fiscal Year Ended June 30, 2008

2. Summary of Significant Accounting Policies (continued)

Other investments that are not traded on a national security exchange (primarily private equity and real estate investments) are generally valued based on audited December 31 net asset values adjusted for cash flows for the period January 1 to June 30 (which principally include additional investments and partnership distributions).

Cash and Cash Equivalents - Cash represents cash held in trust in a financial institution. Cash equivalents are highly liquid investments with a maturity of three months or less at the time of purchase.

Property and Equipment – These assets represent the Line of Business System and computer equipment recorded at cost. Depreciation is provided on a straight-line basis over the estimated useful lives, ten and five years respectively. Depreciation of the Line of Business System commences as each stage is implemented. Property and equipment is allocated to each plan based on its proportionate share of net assets.

Memorandum Only - Total Columns - Total columns on the financial statements are captioned “memorandum only” to indicate that they are presented only to facilitate financial analysis. Data in these columns are not comparable to a consolidation. Inter-fund eliminations have not been made in the aggregation of this data.

3. Cash Deposits and Investments

(a). Cash Deposits and Cash Equivalents

At June 30, 2008, the carrying amounts of the plans' cash deposits are listed below:

	<u>ERS</u>	<u>MERS</u>	<u>SPRBT</u>	<u>JRBT</u>	<u>Total</u>
Cash Deposits:					
Book balance	\$ 795,202	\$ 1,844,965	\$ -	\$ -	\$ 2,640,167
Bank balance	\$ 1,078,397	\$ 1,915,707	\$ -	\$ -	\$ 2,994,104
Cash Equivalents:	\$ 115,421	\$ 100,222	\$ 339,361	\$ 141,444	\$ 696,448
Total Cash Deposits and Cash Equivalents	\$ 910,623	\$ 1,945,187	\$ 339,361	\$ 141,444	\$ 3,336,615

The bank and book balances represent the plans' deposits in short-term trust accounts which include demand deposit accounts and interest-bearing, collateralized bank money market accounts. Of the bank balance, the entire amount is covered by federal depository insurance and \$2,993,910 is also fully collateralized. Cash equivalent type investments include overnight repurchase agreements totaling \$696,448 which were fully collateralized.

3. Cash Deposits and Investments (continued)

(a). Cash Deposits and Cash Equivalents

In accordance with Rhode Island General Law Chapter 35-10.1, depository institutions holding deposits of the State, its agencies or governmental subdivisions of the State shall, at a minimum, insure or pledge eligible collateral equal to one hundred percent of time deposits with maturities greater than sixty days. Any of these institutions that do not meet minimum capital standards prescribed by federal regulators shall insure or pledge eligible collateral equal to one hundred percent of deposits, regardless of maturity. None of the System's deposits were required to be collateralized at June 30, 2008.

(b). Investments

The State Investment Commission oversees all investments made by the State of Rhode Island, including those made for the System. Investment managers engaged by the Commission, at their discretion and in accordance with the investment objectives and guidelines for the System, make certain investments. The General Treasurer makes certain short-term investments on a daily basis. Rhode Island General Law Section 35-10-11 (b)(3) requires that all investments shall be made in securities as would be acquired by prudent persons of discretion and intelligence who are seeking a reasonable income and the preservation of capital.

On July 1, 1992, the State Investment Commission pooled the assets of the ERS with the assets of the MERS for investment purposes only, and assigned units to the plans based on their respective share of market value. On September 29, 1994 and November 1, 1995, the assets of the SPRBT and the JRBT, respectively, were added to the pool for investment purposes only. The custodian bank holds most assets of the System in two pooled trusts, Short-term Investment Trust and Pooled Trust. Each plan holds units in the trusts. The number of units held by each plan is a function of each plan's respective contributions to, or withdrawals from, the trust.

Investment expense is allocated to each plan based on the plan's units in the Short-term Investment Fund and the Pooled Trust at the end of each month.

EMPLOYEES' RETIREMENT SYSTEM OF THE STATE OF RHODE ISLAND

Notes to Financial Statements
Fiscal Year Ended June 30, 2008

3. Cash Deposits and Investments (continued)

(b). Investments

The following table presents the fair value of investments by type at June 30, 2008:

<u>Investment Type</u>	<u>Fair Value</u>
US Government Securities	\$ 601,359,132
US Government Agency Securities	643,206,593
Collateralized Mortgage Obligations	31,139,621
Corporate Bonds	522,078,061
Domestic Equity Securities	1,139,478,203
International Equity Securities	1,239,592,267
Foreign Currencies	12,482,421
Private Equity	661,784,335
Real Estate	380,787,434
Money Market Mutual Fund	423,571,822
Commingled Funds - Domestic Equity	1,973,594,319
Commingled Funds - International Equity	190,306,184
Investments at Fair Value	\$ 7,819,380,392
Securities Lending Collateral Pool	1,116,710,151
Total	\$ 8,936,090,543

(c). Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment.

Duration is a measure of a debt security's exposure to fair value changes arising from changes in interest rates. It uses the present value of cash flows, weighted for those cash flows as a percentage of the investment's full price. The System manages its exposure to interest rate risk by comparing each fixed income manager portfolio's effective duration against a predetermined benchmark index based on that manager's mandate. The fixed income indices currently used by the System are:

- Citigroup Broad Investment Grade Bond Index
- Barclays MBS Index
- Barclays Credit Index
- Credit Suisse First Boston Global Hi Yield Index
- Barclays US Tips Index

At June 30, 2008, no fixed income manager was outside of the policy guidelines.

EMPLOYEES' RETIREMENT SYSTEM OF THE STATE OF RHODE ISLAND

*Notes to Financial Statements
Fiscal Year Ended June 30, 2008*

3. Cash Deposits and Investments (continued)

(c). Interest Rate Risk

The following table shows the System's fixed income investments by type, fair value and the effective duration at June 30, 2008:

Investment Type:	Fair Value (in thousands)	Effective Duration
US Government Securities	\$ 601,359	5.71
US Government Agency Securities	643,207	3.87
Collateralized Mortgage Obligations	31,139	2.04
Corporate Bonds	522,078	5.61
Total Fixed Income	<u>\$ 1,797,783</u>	4.96

The System also invested in a short-term money market mutual fund that held investments with an average maturity of 40 days.

The System invests in various mortgage-backed securities, such as collateralized mortgage obligations (CMO), interest-only and principal-only (PO) strips. They are reported in U.S. Government Agency Securities and Collateralized Mortgage Obligations in the table above. CMO's are bonds that are collateralized by whole loan mortgages, mortgage pass-through securities or stripped mortgage-backed securities. Income is derived from payments and prepayments of principal and interest generated from collateral mortgages. Cash flows are distributed to different investment classes or tranches in accordance with the CMO's established payment order. Some CMO tranches have more stable cash flows relative to changes in interest rates while others are significantly sensitive to interest rate fluctuations. The System may invest in interest-only (IO) and principal-only strips (PO) in part to hedge against a rise in interest rates. Interest-only strips are based on cash flows from interest payments on underlying mortgages. Therefore, they are sensitive to prepayments by mortgagees, which may result from a decline in interest rates. Principal-only strips receive principal cash flows from the underlying mortgages. In periods of rising interest rates, homeowners tend to make fewer mortgage prepayments.

(d). Credit Risk

The System directs its investment managers to maintain well diversified portfolios by sector, credit rating and issuer using the prudent person standard, which is the standard of care employed solely in the interest of the participants and beneficiaries of the funds and for the exclusive purpose of providing benefits to participants and defraying reasonable expenses of administering the funds.

Each manager's portfolio composition is aligned with a benchmark and is constructed based on specific guidelines that are reflective of the manager's mandate. An example of a high yield fixed income manager's guidelines is as follows:

EMPLOYEES' RETIREMENT SYSTEM OF THE STATE OF RHODE ISLAND

*Notes to Financial Statements
Fiscal Year Ended June 30, 2008*

3. Cash Deposits and Investments (continued)

(d). Credit Risk

- No single industry is expected to represent more than 20% of the portfolio's market value.
- No single issue is expected to represent more than 5% of the portfolio's market value.
- The portfolio, once fully invested, is expected to include a minimum of 70 individual holdings.
- The portfolio quality is expected to be invested in high yield below investment grade fixed income securities.
- The weighted average credit quality is expected to maintain a minimum rating of "B" using either Moody's or Standard and Poor's credit ratings.

The System's exposure to credit risk as of June 30, 2008 is as follows:

	<u>Mortgage Obligations</u>		<u>Agency Obligations</u>		<u>Corporate Bonds</u>
Rating (1)					
Aaa	\$ 22,955,664	\$	643,206,593	\$	35,093,457
Aa	66,511				56,687,792
A	1,661,787				144,812,248
Baa	5,748,759				152,548,094
Ba	407,300				36,018,610
B					63,040,621
Caa					10,798,881
Ca					
C					
D					529,020
Not Rated	299,600				22,549,338
	<hr/>				
Fair Value	\$ 31,139,621	\$	643,206,593	\$	522,078,061
	<hr/>				

(1) Moody's Investors Service

The System's investment in a short-term money market mutual fund was rated AAAM by Standard & Poors Investors Service.

(e). Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of a System's investments in a single issuer. There is no single issuer exposure within the System's portfolio that comprises 5% of the overall portfolio and, therefore, there is no concentration of credit risk.

EMPLOYEES' RETIREMENT SYSTEM OF THE STATE OF RHODE ISLAND

*Notes to Financial Statements
Fiscal Year Ended June 30, 2008*

3. Cash Deposits and Investments (continued)

(f). Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the System will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. At June 30, 2008 all securities were registered in the name of the System (or in the nominee name of its custodial agent) and were held in the possession of the System's custodial bank, State Street Bank and Trust.

(g). Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates will adversely impact the fair value of an investment. Portfolios are diversified to limit foreign currency and security risk and the System's investment asset allocation policy targets non-US equity investments at 20%. The System may enter into foreign currency exchange contracts to minimize the short-term impact of foreign currency fluctuations on foreign investments. The System's exposure to foreign currency risk at June 30, 2008, was as follows:

<u>Currency</u>	<u>Cash</u>	<u>Equities</u>	<u>Private Equity</u>	<u>Total</u>
Australian Dollar	\$ 560,349	\$ 84,595,200	\$	\$ 85,155,549

The System also had exposure to foreign currency risk though its investment in international equity commingled funds which totaled \$190,306,184.

3. Cash Deposits and Investments (continued)

(h). Derivatives and Other Similar Investments

Some of the System's investment managers are allowed to invest in certain derivative type transactions, including forward foreign currency transactions, futures contracts, and options. Derivatives and other similar investments are financial contracts whose value depends on the values of one or more underlying assets, reference rates, or financial indexes. The System enters into these transactions to enhance performance, gain exposure to a specific market, or mitigate specific risks. According to investment policy guidelines, derivative type instruments may be used for hedging purposes and not for leveraging plan assets.

Forward foreign currency contracts – The System enters into foreign currency exchange contracts to minimize the short-term impact of foreign currency fluctuations on foreign investments. A currency forward is a contractual agreement to pay or receive specific amounts of foreign currency at a future date in exchange for another currency at an agreed upon exchange rate. These contracts involve risk in excess of the amount reflected in the System's Statements of Fiduciary Net Assets. The face or contract amount in U.S. dollars reflects the total exposure the System has in that particular currency contract. By policy, no more than 25% of actively managed foreign equity securities (at fair value) may be hedged into the base currency (US Dollars). The U.S. dollar value of forward foreign currency contracts is determined using forward currency exchange rates supplied by a quotation service. Losses may arise due to changes in the value of the foreign currency or if the counterparty does not perform under the contract.

Futures contracts – The System uses futures to manage its exposure to the stock, money market, and bond markets and the fluctuations in interest rates and currency values. Buying futures tends to increase the System's exposure to the underlying instrument. Selling futures tends to decrease the System's exposure to the underlying instrument, or hedge other System investments. Losses may arise from changes in the value of the underlying instruments, if there is an illiquid secondary market for the contracts, or if the counterparties do not perform under the contract terms.

Through commingled funds, the System also indirectly holds derivative type instruments, primarily equity index futures. Other types of derivative type instruments held by the commingled funds include purchased or written options, forward security contracts, forward foreign currency exchange contracts, interest rate swaps and credit default swaps.

3. Cash Deposits and Investments (continued)

(h). Derivatives and Other Similar Investments

The System invests in mortgage-backed securities, which are included in the categories described as collateralized mortgage obligations and U.S. Government Agency Securities in Note 3(b). These securities are based on the cash flows from interest and principal payments by the underlying mortgages. As a result, they are sensitive to prepayments by mortgagees, which are likely in declining interest rate environments, thereby reducing the value of these securities. Additional information regarding interest rate risks for these investments is included in Note 3(c) *Interest Rate Risk*.

The System may sell a security they do not own in anticipation of a decline in the fair value of that security. Short sales may increase the risk of loss to the System when the price of a security underlying the short sale increases and the System is subject to a higher cost to purchase the security in order to cover the position.

(i). Securities Lending

Policies of the State Investment Commission permit the System to enter into securities lending transactions. The System has contracted with State Street Bank & Trust Company (SSB) as third party securities lending agent to lend the System's debt and equity securities for cash, securities and sovereign debt of foreign countries as collateral at not less than 100% of the market value of the domestic securities on loan and at not less than 100% of the market value of the international securities on loan. In practice, securities on loan are collateralized at 102%. There are no restrictions on the amount of loans that can be made. The contract with the lending agent requires them to indemnify the System if the borrowers fail to return the securities. Either the System or the borrower can terminate all securities loans on demand. The cash collateral received on security loans was invested in the lending agent's short-term investment pool. At June 30, 2008 the investment pool had a weighted average maturity of 33.36 days and an average final maturity of 77.53 days. Because the loans were terminable at will, their duration did not generally match the duration of the investments made with cash collateral. The System is not permitted to pledge or sell collateral securities received unless the borrower defaults. There were no losses during the fiscal year resulting from default of the borrowers or lending agent.

At June 30, 2008, management believes the System has no credit risk exposure to borrowers because the amounts the System owes the borrowers do not exceed the amounts the borrowers owe the System. The securities on loan at year-end were \$1,141,668,086 (fair value), and the collateral received for those securities on loan was \$1,173,504,899 (fair value).

4. Property and Equipment

Property and equipment consist of the line of business system and computer equipment at historical cost. Balances at June 30, 2008 were:

	ERS	MERS	SPRBT	JRBT	Total
Line of Business System	\$ 15,544,862	\$ 2,287,990	\$ 38,780	\$ 24,973	\$ 17,896,605
Equipment	160,074	25,213	842	550	186,679
Property and Equipment	\$ 15,704,936	\$ 2,313,203	39,622	25,523	\$ 18,083,284
Accumulated Depreciation	(8,999,298)	(1,323,913)	(22,030)	(14,196)	(10,359,437)
Net Property and Equipment	\$ 6,705,638	\$ 989,290	\$ 17,592	\$ 11,327	\$ 7,723,847

5. Contributions

Contribution requirements for plan members and employers are established pursuant to Rhode Island General Laws. Employers are required to contribute at an actuarially determined rate. Plan member contributions are fixed by statute.

(a). Funding Policy

The funding policies, as set forth in Rhode Island General Law, Section 36-10-2 and 45-21-42 provide for actuarially determined periodic contributions to the plans. The actuarial valuation uses the Entry Age Normal actuarial cost method. Under this method, the employer contribution rate is the sum of (i) the employer normal cost rate, and (ii) a rate that will amortize the unfunded actuarial liability. The valuation is prepared on the projected benefit basis, under which the present value, at the assumed rate of return (currently 8.25 percent), of each participant's expected benefit payable at retirement or death is determined, based on age, service, gender and compensation.

The employer contributions required to support the benefits of the Plan are determined following a level funding approach, and consist of a normal contribution and an accrued liability contribution. The normal contribution is determined using the "entry age normal" method. Under this method, a calculation is made to determine the average uniform and constant percentage rate of employer contribution which, if applied to the compensation of each new participant during the entire period of his anticipated covered service, would be required in addition to the contributions of the participant to meet the cost of all benefits payable on his behalf. The unfunded accrued liability contributions are determined by subtracting the actuarial value of assets from the actuarial accrued liability and amortizing the result over a period not to exceed 30 years from June 30, 1999.

EMPLOYEES' RETIREMENT SYSTEM OF THE STATE OF RHODE ISLAND

*Notes to Financial Statements
Fiscal Year Ended June 30, 2008*

5. Contributions (continued)

(a). Funding Policy

Effective July 1, 2005, the law as amended requires, in addition to the contributions provided for by the funding policy, commencing in fiscal year 2006, and each year thereafter, for each fiscal year in which the actuarially determined state contribution rate for state employees and teachers is lower than that for the prior fiscal year, the governor shall include an appropriation to that system equivalent to twenty percent (20%) of the rate reduction to be applied to the actuarial accrued liability. The amounts to be appropriated shall be included in the annual appropriation bill and shall be paid by the general treasurer into the retirement system. The retirement system's actuary shall not adjust the computation of the annual required contribution for the year in which supplemental contributions are received; such contributions once made may be treated as reducing the actuarial liability remaining for amortization in the next following actuarial valuation to be performed.

(b). Contribution rates

Employer contribution rates for fiscal 2008 were developed based on an actuarial valuation performed as of June 30, 2005. The table below displays the contribution rates for the year ended June 30, 2008:

Plan	Employee	Employer
ERS		
State Employees	8.75%	20.77%
Teachers	9.50%	13.04% (12.38% for towns not participating in the 1990 early retirement incentive)
<i>Municipal funded</i>		
<i>State funded</i>		8.97% (8.52% for towns not participating in the 1990 early retirement incentive)
MERS		
General Employees	6.00% (additional 1% with a cost-of-living adjustment)	67 Municipalities, housing authorities, water and sewer districts contributed various actuarially determined rates.
Public Safety	7.00% (additional 1% with a cost-of-living adjustment and /or 1% with a 20 year service plan), Cranston Police and Cranston Fire are contributing 10% due to special plan provisions	43 Municipal police and fire departments contributed various actuarially determined rates.
SPRBT	8.75%	31.00%
JRBT	8.75%	32.07 %

6. Administrative Expenses

Pursuant to General Law section 36-8-10.1, administrative costs of the System are financed through investment earnings up to a maximum of .175% of the average total investments before lending activities as reported in the annual report of the Auditor General for the next preceding five (5) fiscal years. Such amounts are transferred to a restricted receipt account within the State's general fund. Any unencumbered funds on June 30 of any fiscal year are credited to the plans in the same proportion as their contributions to the restricted receipt account.

EMPLOYEES' RETIREMENT SYSTEM OF THE STATE OF RHODE ISLAND

*Notes to Financial Statements
Fiscal Year Ended June 30, 2008*

7. Commitments

The State Investment Commission has committed to fund certain private equity and real estate investment managers at a predetermined subscription amount. Outstanding unfunded investment commitments at June 30, 2008 totaled \$475 million. These commitments will be funded through cash available within the pooled investment trust generated through investment income and/or liquidation of other investments.

8. Postemployment Healthcare Plan

(a). Plan Description

Employees of the System participate in a State administered defined benefit post-employment health care plan known as the Rhode Island Retiree Health Care Benefit Plan (RIRHCBP). The RIRHCBP is an agent multiple-employer plan.

The RIRHCBP is reported in an internal service fund of the State using the accrual basis of accounting. The fund reports all employer and retiree (plan member) contributions to the plan. Contributions are recognized when made. Benefits (health care claims) and refunds are recognized when due and payable in accordance with the terms of the plan. A liability for incurred but not reported claims is determined based on past claims payment trends and is included in the financial statements. Working premium rates are determined by the State each fiscal year after consultation with an employee benefits consultant and are designed to fund current claims incurred during the fiscal year as well as the costs of administering the plan. For the year ended June 30, 2008 the Plan operated on a pay as you go basis and no provision has been made to fund future benefits to be provided to RIRHCBP members. The RIRHCBP does not issue a stand-alone financial report.

(b). Funding Policy

RIGL Sections 36-10-2, 36-12.1, 36-12.2.2 and 36-12-4 govern the provisions of the RIRHCBP. The contribution requirements of plan members, the State and other participating employers are established and may be amended by the General Assembly.

For anyone who retires on or before September 30, 2008, the State provides two types of subsidies for health care benefits. The Tier I subsidy applies to non-Medicare eligible plans and provides that the State will pay the portion of the cost of post-employment health care for the retiree and any dependents above the active group rate. The retiree pays the active monthly rate and the State pays the difference between the active group rate and the early retiree rate. This subsidy is not based on years of service and ends at age 65. In addition to the Tier I benefits, the State pays a portion of the cost of post-employment health care above the Tier I costs for certain retirees meeting eligibility

EMPLOYEES' RETIREMENT SYSTEM OF THE STATE OF RHODE ISLAND

*Notes to Financial Statements
Fiscal Year Ended June 30, 2008*

8. Postemployment Healthcare Plan

(b). Funding Policy

requirements based upon the age and service of the retiree, which is referred to as the Tier II benefit.

In fiscal year 2008, non-Medicare retirees paid the active monthly premium rate and the State paid the difference between the active group rate and the more costly, early retiree rate (the "Tier I" benefit). Pursuant to RIGL Section 36-12-4 the State paid a portion of the cost of post-employment health care above the Tier I costs for certain retirees meeting eligibility requirements based upon the age and years of service of the retiree, which is referred to as the Tier II benefit.

The retirees' fiscal 2008 contributions are as follows:

Retiree Age	Years of Service	Amount of Cost Paid by Retiree
Below 60: (1)		
	28-34	10%
	35+	0%
Retiree Age from 60 to 65: (2)		
	10 – 15	50%
	16 – 22	30%
	23 – 27	20%
	28+	0%
Retiree Age Greater than 65: (3)		
	10 – 15	50%
	16 – 19	30%
	20 – 27	10%
	28+	0%

(1) The monthly premium rate is \$708.94 for the individual plan. The retiree's cost is then calculated based on a maximum of \$452.28 (the active plan rate).

(2) The monthly premium rates are the same as indicated above for the Retiree Age Below 60 category.

(3) The monthly premium rate for the Medicare Supplemental plan is \$179.77 for the individual plan, and the monthly premium for the Medicare HMO plan was \$100.00 for the first six months of fiscal year 2008 and \$107 thereafter. Retirees can choose between the two plans. The retiree's cost is then calculated based on their years-of-service subsidy above.

(c). Annual OPEB Cost

The System recognized an expense equal to the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The System actually contributed 3.91% of annual covered payroll, resulting in a Net OPEB liability of \$53,172. The System's annual OPEB cost, the percentage of annual OPEB cost

EMPLOYEES' RETIREMENT SYSTEM OF THE STATE OF RHODE ISLAND

Notes to Financial Statements
Fiscal Year Ended June 30, 2008

8. Postemployment Healthcare Plan

(c). Annual OPEB Cost

contributed to the plan, and the net OPEB liability for fiscal 2008, the first year of GASB 45 implementation, was as follows:

<u>Fiscal Year Ended</u>	<u>Annual OPEB Cost</u>	<u>Percentage of Annual OPEB Cost Contributed</u>	<u>Net OPEB Liability</u>
June 30, 2008	\$152,173	65%	\$53,172

(d). Funded Status and Funding Progress

The funded status of the System's share of the plan as of June 30, 2008, was as follows:

Actuarial Accrued Liability (AAL)	\$2,176,787
Actuarial Value of Plan Assets	<u>0</u>
Unfunded Actuarial Accrued Liability	<u>\$2,176,787</u>
Funded ratio (Actuarial Value of Plan Assets / AAL)	0%
Annual Covered Payroll (Active Plan Members)	\$2,532,000
UAAL as a Percentage of Covered Payroll	86%

Separate actuarial valuations were not performed to determine the actuarial accrued liability for the System, a participating employer. The total AAL for all general employees participating in RIRHCBP was apportioned to each participating entity based on their pro rata share of active covered employees to all active covered employees.

Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

(e). Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the plan and include the types of benefits provided at the time of each valuation. The actuarial assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

8. Postemployment Healthcare Plan

(e). Actuarial Methods and Assumptions

The actuarial valuation was performed as of June 30, 2005 with results projected to July 1, 2007 for the fiscal year ended June 30, 2008. The annual required contribution was determined using the individual entry age actuarial cost method. The unfunded actuarial accrued liability as of the June 30, 2005 transition date is amortized over a period of 30 years using the level (principal and interest combined) percent of payroll contribution amortization method. Plan changes effective for employees retiring after October 1, 2008 have been reflected in the actuarial valuation performed as of June 30, 2005.

The individual entry-age actuarial cost method is used to determine the annual required contribution amounts and the annual net OPEB liability. The actuarial assumptions include a 3.566% discount rate; an annual healthcare cost trend rate of 12% progressively declining to 4.5% after 10 years; and a salary growth rate ranging from 8.25% in year 1 to 4.75% in year 15 and beyond. The discount rate was calculated based upon the average rate of return during the 10 years ended June 30, 2008 for short term investments of the State's General Fund.

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events in the future. Examples include assumptions about employment, mortality and healthcare cost trends. Actuarial valuations are subject to continual revision as actual results are compared to past expectations and new estimates are formulated about the future.

(f). Significant Legislation Affecting the Retiree Health Care Benefit Plan

On May 1, 2008 Public Law 2008-09 was enacted. This law, among other provisions, (1) establishes a Trust to be effective in fiscal year 2009 to fund other post employment health care benefits (OPEB), (2) requires annual actuarial valuations of the OPEB liability, and (3) commits the State to funding the actuarially determined OPEB contribution beginning in fiscal year 2009. In addition, the legislation changes the eligibility requirements for State contributions for health care coverage for those retiring on or after October 1, 2008. For anyone who retires on or after that date and has a minimum of 20 years of service and who is a minimum of 59 years of age, the State will pay 80% of the actual cost of such health care coverage.

EMPLOYEES' RETIREMENT SYSTEM OF THE STATE OF RHODE ISLAND

Notes to Financial Statements

Fiscal Year Ended June 30, 2008

9. Subsequent Events

In December 2008, the Board of the Employees' Retirement System approved an increase to the fiscal 2010 employer contribution rates for State employees from 20.69% to 25.03% of covered payroll. The fiscal 2010 contribution rates had previously been established and approved by the Board based on an actuarial valuation performed as of June 30, 2007. An increase in the fiscal 2010 employer contribution rate was recommended by the actuary in response to an expected decrease in covered payroll for fiscal 2010. This is due to a significant increase in the number of state employee retirements prompted largely by changes in retiree medical coverage effective October 1, 2008. The expected decrease in fiscal 2010 covered payroll requires that the amortization of the unfunded actuarial accrued liability be applied to a smaller payroll base thereby causing an increase in the employer contribution rate.

2. Schedules of Funding Progress

The MERS funded ratio is a composite of all units in the plan. The System performs a separate valuation for each unit.

Changes affecting the June 30, 2007 actuarial valuation:

The June 30, 2007 actuarial accrued liability was restated for the Judicial Retirement Benefit Trust to reflect the amendment to the law governing benefits for judges appointed after January 1, 2009 – see note 1(b) to the financial statements entitled *Plan Descriptions – Membership and Benefit Provisions*.

The June 30, 2007 actuarial accrued liability was restated for the State Police Retirement Benefit Trust to reflect the amendment to the law governing benefits for state police hired on or after July 1, 2007 – see note 1(b) to the financial statements entitled *Plan Descriptions – Membership and Benefit Provisions*.

Changes affecting the June 30, 2006 actuarial valuation:

Material changes were made to increase the salary, payroll growth and termination assumptions. In addition, there were changes in the Post-retirement mortality rates for non-disabled retirees. Currently rates are based on the 1994 Group Annuity Mortality Tables for males and females, with adjustments to the tables for male teachers and male state employees. The tables are then compared to the A/E ratio (actual deaths to expected deaths). It was determined the tables for state employees required no changes. However, the A/E ratios for teachers were lower than the acceptable actuarial ranges. Therefore, new mortality tables have been constructed and adopted for teachers based on teacher mortality rates in another state with similar life expectancies. The pre-termination mortality currently uses the post-retirement mortality assumption. The rates for pre-termination mortality are computed at a rate equal to 65% of the post-retirement rates.

The base salary rate for ERS and MERS General Employees remained unchanged. Judges base salary rates decreased from 5.25% to 4.50% and State Police decreased from 5.00% to 4.50%. The salary rate increase for state employees changed from 4.50% - 8.25% to 4.50% - 9.00%. Teachers changed from a range of 4.50% - 17.00% to 4.50% - 13.25%. MERS General Employees changed from a range of 4.50% - 9.00% to 4.50% - 8.50%. MERS Police & Fire Employees changed from a range of 5.00% - 15.50% to 4.75% - 14.75%.

EMPLOYEES' RETIREMENT SYSTEM OF THE STATE OF RHODE ISLAND
Notes to Required Supplementary Information
Fiscal Year Ended June 30, 2008

Employees' Retirement System

2. Schedules of Funding Progress (continued)

The payroll growth rate was increased from 3.75% to 4.25% for ERS and MERS; it also increased from 3.75% to 4.5% for State Police and decreased from 5.25% to 4.5% for Judges.

Changes affecting the June 30, 2006 actuarial valuation:

The marriage assumption for members being married has been changed from 100% to 85%.

Changes affecting the June 30, 2003 actuarial valuation:

Material changes were made to the termination, payroll growth and salary increase assumptions. Changes were also made to the general mortality rates and mortality rates used for disabled lives. The disability and retirement tables were also adjusted to reflect the plan experience. Particularly, the salary increase rates for state employees were changed from 4.25% - 14.25% to 4.5% - 8.25%. The base salary increase rates were increased from 4.25% to 4.5% for all teachers and MERS General Employees, and decreased from 5.5% to 5.25% for Judges. The payroll growth rate was increased from 3.0% to 3.75% for ERS, MERS and State Police and decreased from 5.5% to 5.25% for Judges. The June 30, 2003 actuarial accrued liability was restated to reflect the amendment to the law governing benefits for state employees and teachers effective July 1, 2005 – see note 1(b) to the financial statements entitled *Plan Descriptions – Membership and Benefit Provisions*.

Changes affecting the June 30, 2002 actuarial valuation:

The amortization period for the unfunded actuarial accrued liability for MERS was changed to 30 years from June 30, 1999 or 27 years from June 30, 2002.

The actuarial value of assets for MERS was changed from a three-year smoothed market technique to a five-year smoothed market technique.

3. Schedules of Employer Contributions

Employer contributions for the ERS plan included in the Schedules of Contributions from the Employers and Other Contributing Entity do not include Teacher Survivor Benefits as described in Note 1(b) and any employer contributions related to supplemental pension benefits that are attributable and paid by a specific employer. These amounts are not included in the annual required contribution.

The Plans began using the entry age normal cost method as the basis for determining employer costs in fiscal year 2002. The unfunded liabilities of the plans are amortized over a 30 year period from June 30, 1999. The closed period ends 30 years from June 30, 1999.
